Aims and scope

Advances in Science and Research (ASR) is the international open-access proceedings journal of the European Meteorological Society (EMS). ASR publishes advances in the science, profession, and application of meteorology, climatology, and related fields presented at the Annual Meetings of the EMS as well as at the European Conferences on Applications of Meteorology (ECAM) and on Applied Climatology (ECAC). All manuscripts submitted to ASR undergo a rigorous peer review organized by the Programme and Science Committee (PSC).
